The theme of EXPO 2008 is “Water and Sustainable Development”. After a very successful exhibition in Japan 2005 with slogan “A drop of water - a grain of salt”, Croatia is presented with the project by 3LHD architects and photographer Damir Fabijanic. The concept is based on the idea, plan and metaphor of a salt pan. Croatian pavilion is more an event than architecture, based on visual and tactile experience. Special effects take visitors to a virtual tour of Croatian sea, nature and cultural heritage.
